The 5th Molecular Medicinal Chemistry Symposium (MMCS 2026): New Trends in Chemical Biology and Drug Discovery will convene in Beijing, China, from 14 to 17 May, 2026, serving as a premier international platform for scholars and industry leaders to exchange cutting-edge research and drive innovation across the disciplines of chemical biology and drug discovery.

The Molecules Medicinal Chemistry Symposium has solidified its reputation as a premier international platform across four successful editions, with the inaugural conferences held in Barcelona, Spain (1st & 2nd editions), the 3rd edition in Rome, Italy, and the 4th returning to Barcelona - consistently attracting distinguished scholars from top-tier universities, leading research institutions, and industry pioneers to foster groundbreaking collaborations and accelerate scientific translation of scientific discoveries into practical applications.

Making its Asian debut in Beijing, the conference will feature eight thematic forums covering key areas in chemical biology and drug discovery, with field-leading plenary speakers and keynote speakers sharing cutting-edge insights. Researchers, industry professionals, and graduate students are invited to join this anticipated gathering of 200+ participants for a dynamic academic-industry exchange.
