Title: Wuhan 2025 international workshop on “Challenges in Integrability”

Dear Prof. Xiwen Guan

Thank you for organizing *Wuhan 2025 international workshop on “Challenges in Integrability”* for APCTP in December. We are very grateful for your efforts. We are confident that the external program will prove successful and make a meaningful contribution to the participants’ research.

For the continued success of APCTP, it is essential to understand how activities like yours have contributed to research progress. To this end, we have started assigning a unique number/code to each activity and request that participants acknowledge it in their work where APCTP has played a role.

The number assigned to *Wuhan 2025 international workshop on “Challenges in Integrability”* is: **[APCTP-2025-E12]**

Please inform the participants of this number and kindly ask them to cite it in their work. Below are some suggested templates for acknowledgment that participants may use:

=====

- This work was initiated at the external program **[APCTP-2025-E12]** held at Wuhan, China.
- We thank the participants of the external program **[APCTP-2025-E12]** held at Wuhan, China for fruitful discussions.
- We thank APCTP, Pohang, Korea, for their hospitality during the External Program **[APCTP-2025-E12]**, from which this work greatly benefited.

=====

Thank you once again for your dedication and contribution. Please let us know if you have any questions.

Sincerely,

Prof. Misao Sasaki

President (from April 1st, 2025)

Asia Pacific Center for Theoretical Physics
