

About KSS

About the Korean Sensors Society

사단법인 한국센서학회
THE KOREAN SENSORS SOCIETY
Seoul, Korea

KSS was established in November 1991 as the world's first sensor-focused society.

The Korean Sensors Society is an academic organization comprised of sensor technology experts from industry, academia, and research institutes, with over 1,300 members participating in 7 branches across the country participate.

The Korean Sensors Society is the only professional sensor society in Korea that contributes to sensor-related academic and technological development, human resource training, and industry promotion.

- President: Hee Yeoun Kim, Principal Research Scientist (National NanoFab Center)
- Location: Seoul, South Korea
- Establishment : 9 November 1991
- Members: 1,300 persons, 59 related organizations & 138 members of board of directors

About KSS

Journal Publishing

- Journal Title : Journal of Sensor Science and Technology
- First published : 1992
- Issue Period : 6 times/year
- Index : Scopus, KCI (Korea Citation Index)

Conferences Hosted

International

- IEEE Sensors Council 2001 (Seoul National University / Papers : 127)
- IEEE Sensors Council 2004 (Jeju University / Papers : 140)
- Transducers 2005 (COEX, Seoul / Papers : 514)
- IEEE Sensors 2006 (EXCO, Daegu / Papers : 406)
- International Conference on Advanced Robotics 2007 (ICC Jeju / Papers : 212)
- Asian Conference on Chemical Sensors, ACCS 2009 (EXCO, Daegu / Papers : 313)
- APCOT 2014 (EXCO, Daegu / Participants: 426 / Papers : 309)
- IEEE Sensors 2015 (BEXCO, Busan / Participants: 719 / Papers : 557)
- International Meeting on Chemical Sensors 2016 (Ramada Plaza Jeju / Participants: 468 / Papers : 405)

Domestic

- Annual Conference of Korean Sensors Society (since 1990)
- ✓ Recently : Fall Conference of Korean Sensors Society 2025 (The Ocean Resort, Yeosu/ Participants: 711 / Papers : 526)
