

Poster List

Poster Breakout Session S1 and 6 & S3	
Name	Title
Pamela Voigt	Plasma-Assisted Bifunctionalization of Glass Fillers to Develop Contact-Active Antibacterial Dental Composites
Md Sofiqul Islam	Bonding Performance, Mass Stability, and Mechanical Properties of Self-Adhesive Resin Composites and Conventional Dental Composites: A Comparative Laboratory Evaluation
Miruna Anghel	Metrological Assessment of the Trueness of Prosthetic Metal Frameworks Manufactured Through Digital Techniques
Fatima Hamouche	Tantalum-Doped 58S Bioactive Glass Coatings for Corrosion-Resistant CoCrMo Implants
Jiatai Chen	Additive Manufacturing of Bio-Functionalized Ti-CuO Alloys: Mechanical and Biological Insights
Ana Kandić	Multifunctional Rhenium and Iridium Flavonoid Complexes for Antibacterial Biomaterials and Green Therapeutic Platforms
Iriczalli Cruz Maya	In Vitro Validation of Calcium Phosphates Loaded Microgels as In Vitro Niche Model for Dental Applications
Anastasia Ntolia	Comparative Evaluation of Silver Nanoparticles Synthesized via Green and Chemical Routes: Size-Dependent Antibacterial Activity
