

ENTOMO
2027

Conference

Entomological Conference 2027

Arthropod Decline and Non-Destructive Methods

28 September–1 October 2027, Budapest, Hungary

Conference Chair

Prof. Gábor L. Lövei
Aarhus University, Denmark;
University of Debrecen, Hungary

Conference Sessions

- S1. Arthropod Decline (AD)
- S2. Non-destructive Methods in Entomology: Current Situation and Prospects
- S3. Pest Management, Pesticide Resistance, and Toxicology
- S4. Biodiversity, Climate Change, Conservation, Ecology, and Evolution
- S5. Ethical Issues in Entomology
- S6. General Topics

Deadlines

Abstract Submission:
9 April 2027

Acceptance Notification:
7 May 2027

Registration:
9 July 2027

Regular Registration:
10 September 2027

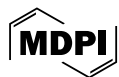

Best Oral Presentation Awards and Best Poster Awards

The Awards are given to the paper judged to make the most significant oral/poster contribution to the conference.

If you are interested in participating in this event, proposing a special session, or any sponsor collaborations, please contact our conference team here:

Organizer:

Insects (ISSN 2075-4450) is an international, peer-reviewed open access journal of entomology published by MDPI online monthly. It publishes reviews, research papers and communications related to the biology, physiology, behavior and management of arthropods as well as their interactions with human societies, plants, and ecosystem services.
